

Introduction

Integrating the Liberty Flights **XO Tank**, the **XO Style** is an excellent, *simple to use, ergonomic* device. The perfect starter kit for users looking to make the switch from traditional tobacco products, upgrade from an existing vaping device or add to an existing portfolio.

Featuring *top dual-lined, leak free airflow control* and *extended battery capacity*, the *power and performance* of this compact device should not be underestimated. The **XO Style** marries *excellent flavour* with satisfying *vapour production* for an all day consistent vape.

Structure

Features

- Compact & Powerful
- Simple to Use
- Integrated Tank
- Versatile Coil Capabilities
- Ergonomic Activation Button
- Built-in 1600mAh Battery
- Adjustable Airflow
- Top-Fill

Kit Contents

- 1 x XO Style
- 1 x Narrow Bore (Mouth to Lung) Drip-Tip
- 1 x Wide Bore (Direct Inhale) Drip-Tip
- 2 x 0.5Ohm SS (Stainless Steel) Coil
- 1 x Replacement Pyrex Glass
- 1 x Micro USB Charging Cable
- 1 x User Manual

How to Use

Filling: To fill your XO Style, firstly screw off the top cap and place to one side.

Once removed place the nozzle of your e-liquid bottle directly into one of the two filling ports in the top of the device. **Be careful not to insert the nozzle into the centre shaft.**

Fill tank with e-liquid, using the glass panel on the body of the device to gauge fill level. Once filled, replace the top cap (allow 3 minutes for coil to saturate before vaping).

Vaping: Press the (Act) button 5 times to switch device on. Press (Act) button whilst inhaling to vape.

Switching Vaping Mode: Pressing the (Act) button 3

times will switch between 3.2V mode or Full Battery Voltage Output. The LED Indicator will flash a yellow light (0.5 second) to indicate when you have changed modes.

I). In 3.2V Mode (Constant 3.2V output): LED Indicator flashes yellow at the speed of 1 Hz steadily.

II). Full Battery Voltage Output (Output Voltage will decrease as battery depletes): LED Indicator will keep a constant yellow light.

Charging: Liberty Flights recommend using a Liberty Flights USB wall plug (5V1A) or computer USB port to charge, plugs with an Amp output of 2A or over must not be used (for example phone or tablet chargers.) The battery will begin to charge immediately. LED indicator is a constant blue light whilst charging and will deluminate when full.

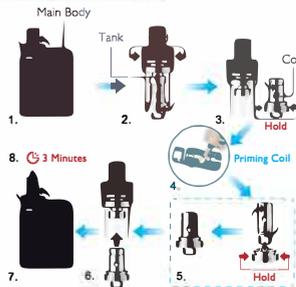

LED Indicator

LED Indicator Alerts:
The LED color indicates the battery voltage:

- **Green:** Full (>3.75V)
- **Blue:** High (3.75V-3.35V)
- **Yellow:** Low (3.35V-3.0V)
- **Red:** Weak Battery Alert, LED keeps flashing for charging (<3.0V)
- **No Light:** Out of Power. The atomizer will stop working when voltage less than 3.0V

Exchange the Coil Head

1. Screw out the tank section from the main body
2. Hold top section of tank and screw off base
3. Screw out and discard old coil head.
4. Prime coil head with 2-3 drops of e-liquid.
5. Screw in new, primed coil head. (Do not over-tighten)
6. Re-attach base section with new coil to tank.
7. Re-attach tank to main body, fill tank via top filling port.
8. Re-attach top cap and allow 3 minutes for coil to fully saturate. press (Act) button 5 times to turn on. Press (Act) button whilst inhaling to vape.

* Dependant on use, coils will need replacing every 1-2 weeks or when flavours are compromised.

Recommended E-liquid

The XO e-liquid range is lovingly crafted in the UK with passion, finesse and extensive research. The Liberty Flight's team of flavourists strive to create the very best flavours available. The XO range of e-liquids are available in a 50/50 VG/PG base and a Heavy VG range making them the perfect companion for the XO line of hardware.

see www.liberty-flights.co.uk for our extensive range

XO Coils

0.5 Ω SS – Perfect for temperature control (SS Mode) vaping or higher wattages and **direct lung inhales**.

0.8 Ω & 1.8 Ω Kanthal – Tighter airflow draw through the coil. Perfect for **mouth to lung inhales**. (Not temperature mode compatible)

- Caution:**
1. These coils utilize organic cotton wick, please do not heat the coils unless they are in a tank filled with e-liquid
 2. It is recommended to saturate the coil prior to vaping, please allow 3 minutes for coil to saturate before using.
 3. Only use the correct, specified coils in this device. (XO Style does NOT support temperature control coils)

Cleaning & Maintaining

When necessary clean the components (**except the coil head**) by washing with clean water and air drying.

The glass tank should not be impacted, dropped or mishandled. Doing so may cause serious injury as the coil can reach high temperatures. Seek medical advice if you feel unwell or are pregnant. Not recommended for young people or non-smokers.

Warning

This product is not intended for use by anyone under the age of 18. Do not operate or heat the coil outside of its designed tank. Doing so may cause serious injury as the coil can reach high temperatures. Seek medical advice if you feel unwell or are pregnant. Not recommended for young people or non-smokers.

Liberty Flights is not liable for any malfunction of any mods or battery, injury or death related to use of separate batteries and mods made by other manufacturers. Do not operate in the rain. Do not expose to water when attached to a battery device or charger. Only charge using a Liberty Flights USB wall adapter (5V1A), this can be found at the link below; <https://www.liberty-flights.co.uk/Chargers/Generic-Chargers>
